

### English

We will look at maps and stories we know well. We will make story maps and link ideas to journeys. We will show good vocabulary and sentence writing using punctuation. We will write descriptions of a journey together and have our own ideas too. We will write postcards and posters that tell us about different places in the world. We will label and describe different forms of transport too. We will continue to learn the phase 3 and 4 phonemes and be able to blend words for reading.

Reading the tricky words: the, I, to, no, go, into.

Enjoy a range of stories, rhymes and poems.

We will be writing for a range of purposes as we play.

### Physical Development

We will be continuing our daily handwriting sessions as we come into class and our 'busy fingers' activities. In PE sessions Enjoy-a-ball-Paul will be working with our class again and we will develop control over balls and other objects when throwing and catching and he will teach us some new fun games.

### Expressive Arts and Design

We will draw maps and paint different types of transport. We will make patterns with tyres and wheels and we will act out our journeys and adventures in our role play. We will sing songs about transport and we will be combining some of the skills we have learnt over the year as well as learning new songs.

Mathematics We will be working with different measures for weight, time and capacity as well as consolidating our knowledge of shape. We will build confidence in using and recording numbers to 20. We will continue to develop our maths vocabulary. We will be using tens frames and develop our recording our equations for addition and subtraction.

## Transport and Journeys

### Communication & Language

We will ask questions and try to answer those from our friends. We will give information to small groups and to the whole class. Our listening skills will continue to develop. We will learn new vocabulary related to transport and journeys and use it to describe and explain the things we learn about.

### Personal, Social & Emotional Development

We will learn how to negotiate and resolve conflicts in a good way. We will respect each other's ideas and opinions and understand that those opinions may vary.

We will continue to develop our understanding of what is right, what is wrong and why. Our super behaviour in class will reflect our understanding of this.

### Understanding the World

We will look at different places in the UK and the world and think about how we can travel to these places. We will look at the similarities and differences.

We will look at different types of transport locally like the hovercraft, train, ferry and bus.

We will be thinking about how we use the roads and paths in 'Road safety Week' and making sure we keep ourselves safe. We'll be using the iPads to explore apps that support our learning in phonics and maths.

R.E. In RE we will explore some of the special events we experience in our lives and look at how we prepare and celebrate these e.g. baptism, weddings and birthdays.

### Characteristics of Effective Learning:

We will continue using our superhero characters and trying to demonstrate good characteristics for learning e.g. Can we make connections in our learning? Can we keep on trying when things are tricky? Do we have our own ideas and ways to do something?
